# Cleanroom Behaviour and Comportment for Aseptic Services

Maintaining proper behaviour and procedures in cleanroom environments is critical for ensuring the safe preparation of injectable medicines and patient safety. Audits and inspections have highlighted deficiencies and lapses in aseptic practices, underscoring the need for improved compliance to the rules of cleanroom behaviour. This course aims to provide insight into the procedures and protocols required for such activity.

## A one day course covering:

- the risks of poor cleanroom practice
- getting into a cleanroom
- cleanroom behaviour
- organising the critical work zone
- understanding human behaviours
- detecting problems and investigations (supervisor skills)

## Delivered via:

- presentations
- interactive discussions and workshops

## Who should attend?

- Management / clean room supervisors
- Releasing pharmacists
- Senior technical staff
- Team leaders
- Investigators / QA

The course is suitable for both licensed and unlicensed units.

If you are interested in learning more about these topics, then the **MSc in Pharmaceutical Technology and Quality Assurance** is aimed at pharmacy, health and biomedical professionals working in the technical services for the NHS or private sector organisations who want to update their skills and knowledge while gaining an academic qualification.

## What our previous delegates say:

“An essential course for anyone working in an aseptic cleanroom, delivered in a comprehensive and thought provoking way. Thoroughly enjoyable.”

“The course was really beneficial to operators who works in a sterile or aseptic unit, to be able to understand the importance of good cleanroom behaviour and the comportment for aseptic services.”

“The course covers some very important topics in a short space of time that I feel are relevant to staff of all grades in aseptic.”
